

# A8S IP Extension Speaker

Pre-Assembled 8" Loudspeaker & Baffle for use with IP Speakers

**C10A Series Speaker**

**161-8**

## Features

- Provides Additional Speaker Coverage for Larger Rooms When Connected to an IP Speaker
- Highly Efficient 10oz Dual Cone Loudspeaker System Provides 94dB Average SPL @ 1W/1M
- Wide Frequency Response of 86Hz – 8kHz ( $\pm 5$ dB) is Perfect for Speech and General Messaging Playback

## Applications

Convenient, cost effective solution to extend the coverage area of an IP Speaker.

## General Description

Quality components are factory wired and shipped complete with dual-cone loudspeaker and square grille. The A8S incorporates 8" model C10A with a 10-ounce ceramic magnet to handle 25 Watts of power. Recessed grille is square with attractive white epoxy finish. To meet code requirements and facilitate installation in a wide variety of ceilings, Atlas Sound offers an optional selection of recessed and surface mounting enclosures, mounting rings and tile bridge accessories.
