SP-3

## Key Features and Benefits

- 3-way partyline intercom splitter
- Allows splitting of analog partyline intercom, HelixNet digital powerline intercom and as line level outputs
- (1) 3-pin Female to (3) 3-pin male XLR type connectors
- Passive device

Encore™ is a 2-wire analog partyline system with intuitive plug-and-play design and superior “Clear-Com Sound” audio clarity.

## Description

The SP-3 is a passive splitter cable for partyline intercom systems. The SP-3 allows the intercom cable to be split three ways for connection to additional intercom stations, providing a convenient and logical junction to any of the intercom system channels.

## Passive and Protocol Agnostic

The SP-3 is entirely passive and can additionally be used for the multi-channel HelixNet digital powerlines, 2-wire intercom systems and line-level output splitting.
