above its weight.

ZXA1 & ZXA1-Sub

The ZXA1 and ZXA1-Sub from Electro-Voice offer the best performance to weight ratio in portable sound – massive power with a minimal footprint.

Weighing-in at just 19 and 46 pounds respectively and equipped with the latest Electro-Voice-engineered components, the ZXA1 and ZXA1-Sub combine to deliver crisp, clean highs and larger-than-life lows in an unbelievably compact, self-powered package.

Add easy-to-use controls and connectivity to the equation and a ZXA1 system helps make load-in, set-up, and tear-down easier than ever, without cutting corners on audio quality – whatever your gig.

Big power has never been so portable… or looked so good.

Powered ZXA1

8-inch two-way powered full-range loudspeaker

19 pounds, 8.6 kg

An incredibly versatile solution for mobile and small-venue sound reinforcement, ZXA1 features the latest professional-grade Electro-Voice drivers and a powerful 800-W amplifier, all presented in a stylish, super-durable ABS enclosure to create a lightweight loudspeaker that looks as good as it sounds. Whether used as a standalone loudspeaker or with a sub, turn up a ZXA1 and your eyes won't believe your ears: small-format never sounded better.

- Lightweight **800-W** Class-D amplifier: **126-dB maximum SPL**
- 8-inch high-output woofer and 1-inch true compression driver
- Rotatable 90° x 50° horn
- Selectable high-pass filter for use with subwoofer
- Line and microphone inputs
- Integral monitor angle and built-in pole mount
- 19 pounds, with handle for easy carrying

Powered ZXA1-Sub

12-inch powered subwoofer

46 pounds, 20.8 kg

Extending the ZXA1's size-defying performance and sleek styling into the low-end realm, the ZXA1-Sub packs 700 W of self-powered punch into a low-profile wood enclosure. Match ZXA1 with ZXA1-Sub and hear just how big a small rig can sound, whether you want to add a tight thump to a DJ set or give the highs and mids some breathing room in a live performance.

- Lightweight **700-W** Class-D amplifier: **126-dB maximum SPL**
- 12-inch high-output woofer
- Dual XLR stereo inputs and outputs
- DSP with low-end boost and polarity control
- Pole mount for full-range systems
- 9-ply/15-mm internally braced wood enclosure with textured paint
- 46 pounds, with handle for easy carrying

The featherweight solution
